The Container must be set on ground that is firm and hard to provide a stable surface for the Container and our Truck to drive on. We cannot deliver a Container on sand or loose dirt. *Weather conditions may impact your delivery. *

Our Truck uses a tilt-bed to deliver your Container. We cannot place your Container on an incline.

The Container must be set on an even and level surface to ensure the door work properly.

Please make sure there are no obstructions within 16' over the delivery area. (Power lines, tree branches, etc.)

Area Around the Container: There should be a free space of 3X that of your Container in front of the Container. (60' for a 20' Container / 120' for a 40' Container)
